## Programma Generale PRE-CONFERENCE DAY

16 Settembre

Università del Salento - Complesso Studium 2000, Edificio 6 - aula 7  
Via Angelo di Valesio, 24, Lecce

*Le trasformazioni socioculturali e istituzionali spinte dalle dinamiche della globalizzazione e ulteriormente accelerate dalla pandemia, sollecitano la psicologia ad interrogarsi sul contributo che essa può dare al governo dei processi sistemici in atto. Rispondere a tale interrogativo passa per una più profonda comprensione delle forme emergenti di domanda alimentate dalle fibrillazioni socioeconomiche e geo-politiche della contemporaneità.*

*La tavola rotonda pregressuale si propone di dare un contributo in tale direzione. Esponenti della società civile, delle istituzioni, del mondo economico discuteranno con psicologi sugli scenari evolutivi in cui sono iscritti, le criticità che sono chiamati ad affrontare, le risorse sui cui far leva, gli obiettivi di sviluppo perseguiti, il contributo possibile della professione psicologica.*

Via Angelo di Valesio, 24, Lecce

*Le trasformazioni socioculturali e istituzionali spinte dalle dinamiche della globalizzazione e ulteriormente accelerate dalla pandemia, sollecitano la psicologia ad interrogarsi sul contributo che essa può dare al governo dei processi sistemici in atto. Rispondere a tale interrogativo passa per una più profonda comprensione delle forme emergenti di domanda alimentate dalle fibrillazioni socioeconomiche e geo-politiche della contemporaneità. La tavola rotonda pregressuale si propone di dare un contributo in tale direzione. Esponenti della società civile, delle istituzioni, del mondo economico discuteranno con psicologi sugli scenari evolutivi in cui sono iscritti, le criticità che sono chiamati ad affrontare, le risorse sui cui far leva, gli obiettivi di sviluppo perseguiti, il contributo possibile della professione psicologica.*
